Overview:

IPMB 2026 brings together molecular biologists, geneticists, biotechnologists, agriscientists, and industry leaders to foster collaboration and knowledge exchange that accelerate advancements in plant science. With a strong emphasis on both fundamental molecular mechanisms and real-world agricultural and biotechnological applications, IPMB 2026 is dedicated to shaping the future of plant research, crop improvement, and sustainable biotechnology solutions.

Call for Papers

Participants are invited to share their research and findings by submitting abstracts for consideration in the scientific sessions. A standardized template for submissions can be found on the "Abstract Submission" page of the conference website. All accepted abstracts will be featured in the extended abstract book, which will be accessible online and distributed at the conference.
